

## 6. HEALTH SCIENCE

### ORAL PAPER PRESENTATION

SI No.	Reg No.	Title
1	14244	Evaluating the diagnostic potential of liquid biopsy by next generation sequencing in oral tongue carcinoma
2	15575	Glucose Oxidase – Peroxidase incorporated alginate diamine peg-g-poly(pegma) xerogels for diabetic wound healing
3	15645	Is Kerala treating its migrant labourers well
4	15830	Yoga reduces hypercholesterolemia by down regulating pro-inflammatory cytokines and immunophilins
5	15846	Immunohistochemical profiling of p53 mutation status: a propitious approach for tnbc prognostication
6	15852	Telomere independent nuclear and mitochondrial functions of human telomerase (h TERT) in the regulation of cell cycle and cell death
7	15859	Wound healing and tissue regeneration activities by Thottea siliquosa leaf essential oil and its nanoparticles
8	15872	siRNA and anti-neoplastic agent tethered gold nanosystem: A promising in vivo co-delivery system for breast cancer management

### POSTER PRESENTATION

SI No.	Reg No.	Title
1	13563	Effect of the anti-fungal agent, fluconazole, on reproduction in Drosophila melanogaster
2	15534	Bioactivity-guided isolation of $\alpha$ -glucosidase and $\alpha$ -amylase inhibitors from CASSIA MIMOSOIDES L.
3	15551	Determining the effects of high glucose on placental glucose transporters and insulin receptors using HTR-8/SVneo cells
4	15580	Alginate-PEG-starch inspired templates for guided cardiac tissue engineering
5	15653	Salutary attributes of probiotic human gut lactobacilli
6	15770	Genomic screening of hereditary breast & ovarian cancer; its interpretation and counselling challenges
7	15868	In silico evaluation of some potentially active natural phytochemicals as effective antiviral agents on the SARS-Cov-2 Mpro
