

## 7.Life Sciences

Sl. No.	Reg No.	Title
<b>Oral Paper Presentation</b>		
1	10641	Antimicrobial peptides from sin croaker, johnius dussumieri
2	14172	Sulfated polyglucosaminopyranosyl arabinopyranan from seafood amphioctopus neglectus attenuates angiotensin-ii prompted cardiac hypertrophy
3	15191	Targeting NRF2 mediated mdr regulation in cancer stem cells using rxra agonist bexarotene
4	15322	In silico investigation of anti-dengue lead from annona reticulata linn
5	15443	Comparative study of antimicrobial activity and phytochemical analysis of lagenandra toxicaria dalz. and its endophytic fungus
6	15502	Faunal diversity of anopheles (diptera : culicidae) in north malabar and its possible role in malaria transmission in the future
7	15536	Screening of marine diatoms for hydrocarbons of biofuel significance
8	15571	Cyclophilin a impairs efferocytosis and advances atherosclerotic lesions
9	15599	Rice straw ethanol: Evaluation of pretreatment method and the performance of low-cost commercial acid cellulases
10	15632	Antibiotic-active heterotropic firmicutes sheltered in seaweeds: Can they add new dimensions to future antimicrobial agents?
11	15747	A review of the genus spilomena shuckard (hymenoptera: crabronidae) with the description of six new species from india
12	15753	Antioxidant effect of a glutathione enriched polyherbal formulation on experimental diabetic model
13	15795	Growth enhancement of cardamom upon root colonization by endophytic fungus piriformospora indica
14	15833	Effect of nutritionally rich microalgal species on growth, survival and reproduction of copepod oithona rigida
15	15835	Antimalarial and antimicrobial potentials of a marine actinomycete nocardioopsis synnemataformans MCCB 972 isolated from an arctic fjord
16	15891	In vitro anti-inflammatory activities and gc- ms profiling of essential oil from thottea siliquosa (lam.) ding hou, an ethnomedicinal plant
17	15901	Screening and isolation of cold active lipase producing strain for biodegradation of lipid rich wastes
18	15908	Contact toxicity and fumigation effects of methanolic extracts of annona squamosa, syzygium aromaticum and citrus aurentifolia against sitophilus oryzae
19	15914	New records of pemphredonid wasps (hymenoptera: crabronidae) from Kerala with an updated checklist

Sl. No.	Reg No.	Title
20	15918	Nitela latreille, 1809 (hymenoptera: crabronidae: crabroninae): first record from india and a new record from Kerala State
21	15936	First record of methocha taprobane krombein (hymenoptera: tiphiidae: methochinae) from India
<b>Poster Presentation</b>		
1	10871	Marine endophytic actinomycetes as potential producers of industrially important enzymes
2	11285	Bioactive potential of endophytic fungi from marine seagrass thalassia hemprichii of Lakshadweep islands
3	12814	Genetic diversity analysis of trichopus zeylanicus subsp. travancoricus accessions using SCoT markers
4	13598	Genome-wide analysis of clinical staphylococcus aureus isolate reveals the presence of a strain-specific integrated resistance plasmid with antibiotic resistance genes
5	15448	Phenology, seed development and seed storage in mesua ferrea l., a medicinal tree of Indo-Malayan region
6	15471	Hidden mycobiont of mangrove, avicennia officinalis as a source of anticancer enzyme l-asparaginase
7	15477	Global climate change poses a threat of malaria transmission in Coastal Kerala, India
8	15495	Green synthesis of silver nanoparticles using merremia vitifolia (burm f.) hallier (convolvulaceae) leaf extract; comparing the effectiveness of larvicidal activity on n-hexane extract against aedes albopictus l. (diptera: culicidae)
9	15564	Modulation of microbial virulence by activated furan compounds
10	15570	Microplastic as a "macro" concern – problems and solutions
11	15640	Silibinin's inhibitory activity on bacterial gelatinases
12	15670	Lipofection-mediated gene delivery and transgenic expression of dsred2 in the primary cell culture from the crustacean model daphnia pulex
13	15692	A study on climate change impact on selected three endemic and threatened trees: implications and adaptive strategies
14	15739	Copepods infecting the fishes of north malabar coast of kerala: diversity, occurrence and fecundity
15	15780	Fruit morphology and nutritional content of frugivore dispersed trees: identifying drivers for the foraging preferences of fruit-eating birds and animals in Shola forest of Western Ghats, India.
16	15792	Hormone receptor heterogeneity in breast cancer cells: Understanding the receptor dynamics in hormone resistance.
17	15825	Phytochemical investigation of the indian pitcher plant, nepenthes khasiana
18	15834	Understanding mangrove salt tolerant strategies using anatomical traits

<b>Sl. No.</b>	<b>Reg No.</b>	<b>Title</b>
19	15841	Thismia (Thismiaceae): a fungal-like flowering plant often neglected by the taxonomists
20	15842	Diversity of endemic, threat category of plant species of Chemunji hillock, Agasthyamala, Western Ghats
21	15850	Comparative screening of jacalin and anticancer activity in wild and cultivar varieties of jackfruit
22	15905	Genotoxic study of clerodendrum infortunatum L. in human lymphocyte culture using CBMN assay
23	15943	A study on Indian spalangiinae (hymenoptera: pteromalidae) with new records to Kerala
